DETAILED ACTION

Claims 1-6 are pending in the application.

Election/Restrictions

Applicant's election without traverse of Group I, claims 1-3 in the reply filed on 7/7/05 is acknowledged. Claims 4-6 are thus hereby withdrawn from consideration on the merits as they are directed toward a non-elected invention.

Claims 1-3 were examined on their merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Pope, L (1999 – Nutrition 2000 internet site).

Pope, L. disclosed that noni juice was conventionally consumed in freeze-dried, concentrated, encapsulated form (see page 5, internet print-out). Consumption of the product would have inherently produced inhibition of PDE because the claims are directed toward simple ingestion of the material which was already known in the art. Thus, the act of ingesting even a minute amount noni juice concentrate would have inherently manifested inhibition of PDE enzyme, especially since PDE enzyme is an endogenous enzyme to humans and especially lacking evidence to the contrary.

No Claim is allowed.
